February, 2014

**To: All Active Plan Members
The Edmonton Pipe Industry Health & Welfare Plan**

Re: Benefit Plan Enhancement

Dear Plan Members,

The Board of Trustees is pleased to advise that, **effective March 1, 2014**, Active Plan Members, and their eligible Dependants, may be entitled to receive up to \$5,000.00 per person towards the cost of attending an in-patient program at an approved Treatment Centre which treats addictions to alcohol or drugs (**excluding any and all treatments related to quitting smoking**).

Please take note of the following conditions:

1. Active Plan Member is defined as a Member who is covered for benefits by way of hours remitted to the Plan by a Contributing Employer or a Member who is making Self Payments to the Plan under Plan A.
2. The lifetime maximum benefit payable from the Plan is \$5,000.00 per person towards the cost of the program only. **Travel and incidental costs are not eligible for reimbursement.**
3. Payment from the Plan will only be issued once a letter has been received from the Treatment Centre which specifies successful completion of the program which was attended.
4. A payment receipt from the Treatment Centre must also be submitted.
5. Treatment Centres located outside Canada are not eligible.

Listed on the second page of this letter are the approved Treatment Centres in the provinces of Alberta, British Columbia and Ontario. Members requesting to attend a Treatment Centre other than those listed must receive prior approval from Homewood Human Solutions. **Dependants may elect to attend an alternate Treatment Centre provided it is located in Canada.**

Please contact the Administration Office should you have any questions regarding this new benefit enhancement.
